

Your SEO Audit Report

Website: <https://solvia.app/>
Report ID: 10
Data from: 2025-11-08 to 2025-12-05

Summary

Your site appeared in front of **1159** people in Google search results this month - that means Google recognizes your presence and you're building visibility.

Out of those impressions, **40** visitors clicked through, giving you a CTR of **3.45%**. That's a good early signal that your content is relevant, but there's still room to grow engagement through sharper titles and descriptions.

On average, your pages appeared in position **5.2**, which means you're hovering on the first page of results. Getting to the top 3 will take consistency - adding fresh content, improving internal links, and keeping your meta details clear.

Your site is becoming more discoverable. Focus on optimizing top-performing pages and expanding

You're building momentum. Consistency will accelerate your growth.

Health Score

Metric	Current Value	28-Day Change	Notes
Total Impressions	1159	+7400.0%	Visibility increasing steadily
Total Clicks	40	+400.0%	Traffic growth is positive
Click-Through Rate	3.45%	-93.33pp	Slight dip â€” adjust titles
Average Position	5.2	+2.4	Rankings declining
Indexed Pages	0	N/A	1 unindexed page(s)

Your Next Steps

- * Submit sitemap to Google Search Console
- * Optimize meta titles with emotional, relevant keywords
- * Fix indexing issues for 1 page(s)
- * Add internal links between your existing pages
- * Generate another report after 14 days of these changes being made to track progress

Optimize your top performers. Small improvements compound into significant gains.
